Inspector(s): Victor Altamirano

Date: 091013

Location: West of OTD building test area S3-D2

Weather: Partly cloudy / 75 degrees

Workers:

Field Work

I inspected various times throughout the day the siphon hose that connects from the sodium chloride and H2O tank to the wet chambers to see if I needed to try and remove air bubbles. Verified that the water level in the main NaCl / water tank was enough not to re-fill. Test rod did not break during my inspection.

Office Work

Wrote my diary and reviewed submittal 2911R1.

My work hours:

8 hours total.
